SUMMARY

Backend Developer with hands-on experience building REST APIs using Python, Django, and Django REST Framework. Skilled in backend development, database design, and version control using Git and GitHub. Experienced in building backend systems with CRUD operations and RESTful APIs, as well as collaborating in team environments. Currently expanding backend development skills by learning FastAPI and improving knowledge in scalable backend architecture.

EXPERIENCE:

Najot ta'lim – Python Backend Course Student

Sep 2025 – May 2026

- Learned Python, Django, and PostgreSQL through practical backend development projects.
- Collaborated in a team to build backend applications with CRUD operations.
- Used Git and GitHub for version control and team collaboration.
- Practiced building REST APIs using Django REST Framework.

RELEVANT PROJECTS:

Online Shop – Django + PostgreSQL

[Github](#)

- Built backend system for an online shop using Django and PostgreSQL.
- Designed database models for users, products, and orders.
- Implemented CRUD operations for managing products and orders.
- Structured backend logic following Django best practices.

Blog Platforml – Django REST Framework

[Github](#)

- Developed REST API for managing blog posts and comments in a team environment.
- Implemented CRUD operations using Django REST Framework.
- Integrated PostgreSQL database for data management.
- Implemented basic authentication for API endpoints.

EDUCATION:

Najot ta'lim – Python Backend development course

Sep 2025 – May 2026

SKILLS:

BACKEND: Python, Django, Django REST Framework, FastAPI

FRONTEND BASICS: JavaScript, Html, Css,

DATABASES: PostgreSQL, MySQL, SQLite

TOOLS: Git, Github, Postman, Docker

SOFT SKILLS: Communication , Mentoring , Problem Solving, Teamwork, Learning Ability

LANGUAGES:

UZBEK: – Native

ENGLISH: – Technical

RUSSIAN: – Technical
